strong for
tough jobs.

MODEL 337

The Model 337 is the ideal truck for general freight applications. Maximum durability and uptime are achieved thanks to a proven design that features an all-aluminum cab, a Metton® hood and a stainless-steel grille. The sloping hood provides excellent visibility, enhancing driver productivity. The optional SmartNav display provides real-time truck monitoring, truck-specific navigation, hands-free Bluetooth® connectivity and satellite radio. The 337's multiplexed electrical system offers easy diagnostics thanks to numbered and color-coded wiring. The available PACCAR PX-7 and PX-9 engines deliver an ideal blend of power and fuel economy and are designed for maximum uptime. The 337 is optimized for delivery applications like dry goods, construction and mixed freight.

MODEL 337 SPECS

- SmartNav® Infotainment and Navigation System Available
- Collision Mitigation System Available

For more information on the Model 337, contact your local Peterbilt dealer or visit peterbilt.com.

FUEL EFFICIENCY

Peterbilt offers two proprietary engines. Both provide outstanding fuel economy for greater reliability and overall performance.

PACCAR PX-9

HP – 260-380
Torque – 720-1250

PACCAR PX-7

HP – 200-325
Torque – 520-750

MANEUVERABILITY

Featuring up to a 53-degree wheel cut, the 337 allows pickup and delivery drivers to maneuver in congested urban environments, as well as tight loading and unloading conditions.

ERGONOMICS

The durable and ergonomic dash features LED backlit gauges that are easy to read, a driver information display for critical vehicle data and rocker switches within easy reach.
